## "Apricot hike" presented by Gartenhotel & Weingut Pfeffer

Guided by the Wachau HIATA® through the apricot-gardens of the Wachau

---

*Queen apricot is sung and celebrated in the Wachau valley in many guises. In order to experience a deeper insight into the history and the importance of apricot for the country and people in the Wachau, there are 2 dates that you should make a note ...*

Apricot lovers ... and those who want it even be watched: The Weingut Pfeffer offers 2 times a year special tours on the subject of apricot. On July 15, 2015 took place in the Garden Hotel & Weingut Pfeffer the annual event "Everything apricot - hike and tasting" instead.

The 1.5-hour hike was an easy walk through the apricot-gardens directly situated near the danube. Many visitors were impressed by the picturesque surroundings up to the presentation of our Wachau Hiata Alexander. In a short break under the shade of apricot trees, there was time to speak about "The Gold of the Wachau".

The topic range from a variety of work in the orchard, about the varieties of the Wachau apricot, the fruit cut up for processing of fresh apricots and their production in the Wachau.

After the walk we went back to the hotel, where the tasting took place in our Zirbenstube. Products around the apricot and a small wine tasting were here in the program. The apricot itself can be found not only as apricot dumplings again, but also as jam and brandy, liqueur or stewed apricots. All these products can be found on the menu of the Garden Hotel.

Did you know that the apricot is one of the rose family? This and much more you will learn in the hike "Everything apricot". Be there next year, we look forward to welcome you
